

SCIENCE: GROWING UP

Key Vocabulary

baby, need, want, living, alive, essential, food, milk, water, drink, eat, air, breathe, shelter, warmth, survival, depend, child, toddler, compare, change, differences, dependent, independent, move, care, learn, appearance, annotate, life cycle, life story, stages, order, pregnancy, birth, teenager, adult, parent, elderly person, grow, measure, compare, table, scatter graph, plot, pattern, evidence, observation, question, record

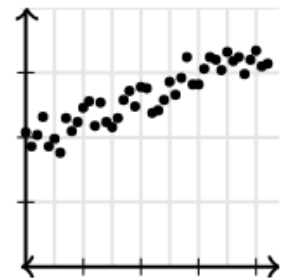

Must – know knowledge

By the end of the unit, children will:

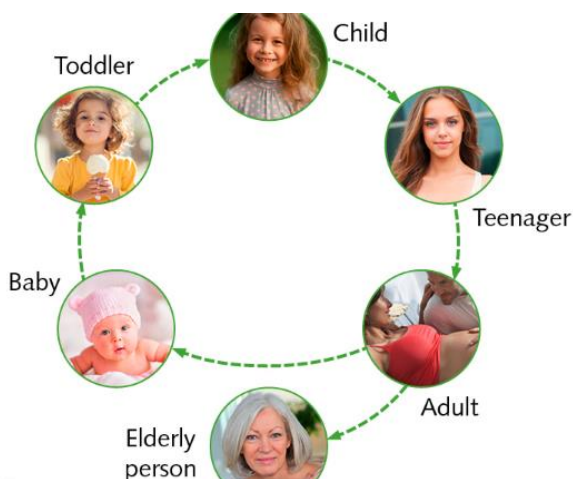

- consider the basic needs of humans for survival (food, water, air), the need for warmth and shelter, and additional needs for health and wellbeing.
- compare different stages of human life children consider growth, changes in physical appearance, movement, feeding and diet, self-care, the move from dependency to independence and parenthood.

Working Scientifically

- Finding out information from secondary sources.
- Observe changes over time.
- Identify patterns and record findings in a scatter diagram.

The human life cycle

Experiments:

- Do older children have bigger heads?
- Do all our body parts grow as we get older?
