

DLD Awareness Day 2025

Developmental Language Disorder

To mark DLD Awareness Day, the JCT wanted to share one incredible resource to support learners with DLD - ‘The DLD Bubble Toolkit’

Specific Areas of the DLD Bubble

In the next section we will explore each aspect of the DLD Bubble (click on a link to go to that area):

- [learning and memory](#)
- [social language](#)
- [discourse](#)
- [sentences](#)
- [words](#)
- [speech sounds](#)

The DLD Bubble Toolkit:

- Illustrates the different areas of challenge young people with DLD can experience - this will be different for each young person.
- Allows you to click on different areas to access information, strategies and resources to support children with each area of need.
- Provides a ‘Bubble Check’ so you can record strengths and areas of need for each child

It's useful for children with a wide range of SLCN, including DLD.

Click here to access the DLD Bubble:
